

Mr. Michael Powell,

As an American citizen, I deplore your flagrant disregard for the American people by your underhanded effort to surreptitiously revise FCC rules to subvert the interests of We The People, who own the airwaves of America. Your plan to hand over to mega-corporations what your office is responsible for protecting for the public is a heinous crime against the people of America. You are obviously in league with the most unsavory handful of venal individuals in DC.
